

ENERGY SAVINGS SEMINAR

17th May 2012
Hotel Lusitano - Golegã

SCOPE

Being aware that the environmental values are becoming far more important and that the market is putting more pressure in reducing production costs it is our wish to present new technical solutions and approaches to the energy saving question in the paper industry.

OBJECTIVE

Provide the technical teams from paper production, maintenance and automation with new tools to achieve the energy savings and environmental impact reduction of their processes.

METHODOLOGY

METSO will provide technical solutions supported by real data and payback results.

TARGET AUDIENCE

Technicians of the pulp and paper field, members and non members of Tecniceipa.

PROGRAMME

- 09:30** – Reception and registration of participants
- 10:00** – The importance of saving energy
